

LMB-120

铝门窗单头组角机

Corner Crimping Machine for Aluminium Window and Door

[性能特点]

- 动力由液压系统控制，工作平稳可靠。
- 采用全新机械联动装置，可实现同步协调变形，使窗角连接更牢。
- 可换不同规格刀片，使用方便，刀片使用寿命更高。

[Product Features]

- The frame is operated by hydraulic system, which is steady and reliable.
- Adopt new mechanical linkage device, realized complete synchronous coordination deformation, ensuring corner combining.
- Can be replaced with different specifications of blades, which is convenient and the blade life is longer.

技术参数 Technical parameters

电源	Power supply	380V 50Hz
电机功率	Motor power	1.5kW
额定油泵压力	Nominal pump pressure	10MPa
电机转速	Motor rotational speed	1400r/min
适用型材规格	Profile processing	20-100mm
总组角压力	General pressure of corner combining	48kN
外形尺寸	Contour dimension	1850×1680×1210mm
重量	Weight	300kg
