

LY-150

铝门窗五金件冲床 Hardware Punching Machine for Aluminium Windows and Doors

[性能特点]

- 用于平开铝门窗五金件安装孔槽的冲压（限20mm欧标C槽）。
- 动力采用气动脚踏控制，工作稳定。
- 五个工作位置，可完成平开扇料执手安装槽、通用水槽、切角以及传动器端头冲孔($\Phi 10$ 、 $\Phi 6$)的加工。

[Product Features]

- Used for hardware installation holes and grooves punching for aluminium windows and doors.
- The driving is controlled by the pneumatic step valve to make the work stable.
- The five working position can finish the handle groove, the water tray, the corner cutting and punch processing.

技术参数 Technical Parameters

油压公称压力	Punch pressure	16kN
工位数		
冲压行程	Punch journey	30mm
$\Phi 240 \times 500$ mm		
	Air consumption pressure	0.6-0.8MPa
$\Phi 400 \times 1800$ mm		
	Weight	200kg
